At the Home Economic Club held Tuesday afternoon at 3 o'clock, the lesson on fruits was given by Miss Anna Rasmussen. Demonstrations in fruit salads were given by the following seventh and eighth grade girls: Lella Clark, Tina Ward, Agatha Day, Eva Mitchell, Kathleen Mitchell and Blanch Dalton. Cheese straws were prepared by Miss Belle Connell and lady fingers by Miss Anna Rasmussen and Mrs. Lara Connell. Each girl prepared a different salad some of which were tastefully garnished with green. The table was spread with spotless linen and beautifully decorated with flowers, and laid with individual salad dishes and forks.

The demonstration gave the girls a splendid lesson in serving and was a complete success in every detail. At the close of the class all the recipes used were given.

Prof. Caine Visits Shearing Plants.

Prof. J. T. Caine III of the Agricultural College today (April 11) began a trip through various parts of the State during which he will visit the sheep-shearing plants in the interest of the movement to bring about a more humane treatment of sheep in shearing. The Agricultural College is quite in harmony with the Humane society workers and will use its influence in behalf of this society's cause. Gov. Sperry also has endorsed this idea of co-operation.

In the past such cruel treatment has been dealt out to the sheep by shearers in the interest of speed in shearing. Prof. Caine says this is not only a breach of humanity, but results in such injury to the sheep that their owners lose considerably in profits.

While only a part of the shearing plants will be visited at this time, Mr. Caine expects to cover them all before the shearing season is over.

During the trip Prof. Caine, in connection with N. J. Evans and R. H. Stewart, farm demonstrators, will hold seven farmers' institutes in Carbon and Emery counties. One of the principles that will be emphasized at these meetings will be the importance of breeding up farm animals. Up-to-date methods of agriculture in general also will come in for consideration. April 14, Prof. Caine will act as judge in the Northern Utah Live Stock show to be held at American Fork.

He reports their having visited a sheep camp between here and Iron Springs last Friday night. After they had satisfied their hunger they left him unmolested. The wives of the Mexicans are in Caliente, and Sheriff Floyd thinking his men would be more likely to go there than anywhere else, left here en route to Caliente last Monday morning.

Holding of the San Diego Exposition during the entire year of 1915, which is expected to attract hundreds of thousands of visitors from all over the world to San Diego, was the incentive for the movement, which has now assumed such form that those at the head of it feel safe in asserting that by January 1, 1915, the date of the opening of the San Diego Exposition, there will not be an unsightly spot in all San Diego.
